

# MINI SHOT

M-Spec M1 V2 Red Dot

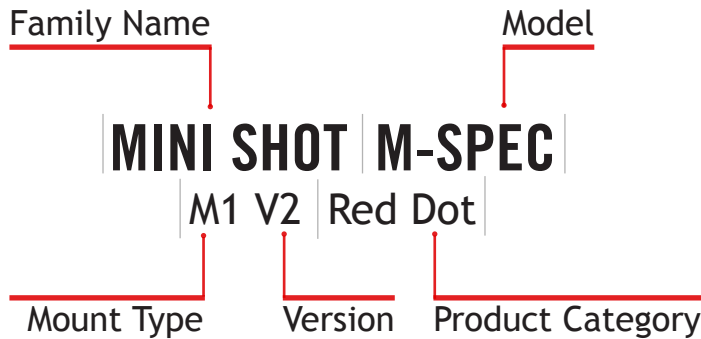

## Product Description

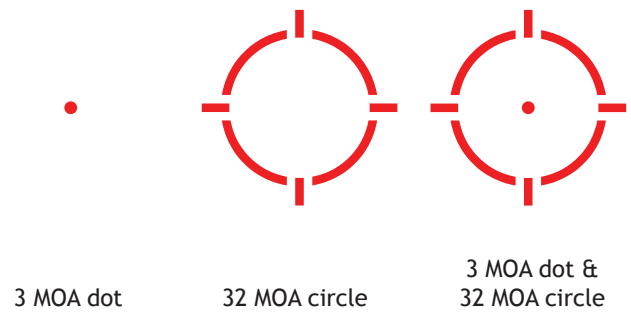

The Sightmark Minishot M-Spec M1 V2 delivers rapid target acquisition, tough-as-nails construction, and long-lasting reliability in a compact red dot optic. It offers three reticle modes – 3 MOA dot, 32 MOA circle, and a circle-dot hybrid – Shake Awake power savings with up to 50,000 hours of runtime, a top-loading CR1632 battery, IP67 waterproofing, and Docter/Venom footprint compatibility with included high/low mounts. Perfect for ARs, shotguns, and pistols when you need a rugged reflex sight that performs under pressure.

## Naming Specifics

## Reticle Information

## Use Case

**Short to Medium Range Shooters and Hunters**

### Tactical Professionals & Training Units

- Rugged, duty-ready construction
- Long battery life for extended deployments
- Simple, reliable operation under stress
- Ideal for patrol rifles and duty carbines

### Hunters

- Waterproof housing withstands rain, snow, and mud
- Shake Awake keeps the sight ready without draining power
- Fast acquisition for moving targets in unpredictable conditions

### Competitive Shooters

- Excellent for PCCs and modern sporting rifles
- Minimal parallax for faster transitions and cleaner hits
- Supports rapid stage movement and split times

### Home & Personal Defense

- Compact footprint fits shotguns, handguns, and PDWs
- Intuitive reticle for quick sight picture under pressure
- Instant-on activation when every second counts

## Advantages

- **3 MOA dot + 32 MOA circle reticle + Circle Dot**  
Fast aiming point for close targets (3 MOA) with a larger circle for quick centering and peripheral reference at short distances (32 MOA), as well as a hybrid mode that combines both options into a reticle suitable for both short-range engagements and mid-range precision.
- **Shake Awake motion activation**  
Automatically sleeps when idle and wakes with movement. Preserves battery life.
- **Up to 50,000-hour battery life (dot only, lowest setting)**  
Extremely long runtime in practical use reduces maintenance and the chances of unexpected battery failure.
- **Top-mounted CR1632 battery**  
Field-serviceable battery access that lets you change the cell quickly without removing the optic from the rail.
- **IP67 waterproof rating**  
Survives immersion and heavy rain; reliable in harsh weather or wet environments.
- **Shockproof / recoil-rated for .45-70 Gov't and 12 gauge**  
Built to withstand heavy recoil, suitable for high-recoil rifles and shotguns without failure or loss of zero.

SM26062

# MINI SHOT M-Spec M1 V2 Red Dot

## SPECIFICATIONS & FEATURES

SPECIFICATIONS	SM26062 MINI SHOT M-Spec M1 V2
Reticle	3 MOA Dot & 32 MOA Circle
Reticle Color	Red
Illuminated Reticle (Yes/No)	Yes
Reticle Brightness Settings	11 (9 day/2 NV)
Magnification (x)	1x
Objective Lens Diameter (mm)	24x19
Eye Relief (in/mm)	Unlimited
Parallax Setting (yds/m)	50
Adjustment One Click = (MOA)	1
Adjustment Range (MOA)	120 / 120
Maximum Caliber	3000G
Battery Type	CR1632
Battery Mount	Top mounted
Battery Life (Circle Dot Constant On)	High: 60 Hrs / Mid: 1,800 Hrs / Low: 6,500 Hrs
Battery Life (Dot Only Constant On)	High: 400 Hrs / Mid: 3,900 Hrs / Low: 7,500 Hrs
Battery life (Dot Only Including Shake Awake)	High: 800 Hrs / Mid: 15,000 Hrs / Low: 50,000 Hrs
Shockproof (yes/no)	Yes, 5 ft / 1.5m
IP Standard (Water Rating)	IP67 - Water & Dustproof
Body Material	Aluminum 6061-T6
Lens Coatings	Multi Coated
Operating Temperature	-20° to 140° F / -30° to 60° C
Mounting Footprint	Docter / Venom
Dimensions of Sight Only (in/mm)	1.85 x 1.26 x 1.16 / 47 x 32 x 29.5
Weight of Sight only (oz/g)	1.27 / 36

## FEATURES

- Docter / Venom footprint
- Low-Profile Exposed Turrets
- Fully Multi-Coated Lenses
- Rugged 6061 Aluminum Housing
- IP67 Waterproof & Shockproof
- Includes high (1.5") and low (1.1") mounts
